- Get ready to be blown away by this incredible truck! Not only is it priced to sell, but it comes with a new rebuilt transmission and power steering assist, new batteries, a new power divider, and ALL brand new tires! This beast is truly a force to be reckoned with and has everything you need to tackle any job. Plus, with its exceptional condition and minimal use, this fire truck is guaranteed to serve your department for years to come!

Prepare to be amazed by the visionary four-wheel-drive designs of William Besserdich and Bernhard Mosling! Their patented automatic locking differential (1914) and front driving axle with improved steering and drive capacity (1915) were ahead of their time, with the power to transform the performance of vehicles on early 20th century America's rugged roads. Despite being rejected by major automakers like Case, Ford, Jeffery, Kissel, Packard, and Studebaker, Besserdich and Mosling were undeterred. Their determination and resilience inspired them to take charge of their ideas and turn them into reality, setting the stage for a revolution in the world of four-wheel-drive technology!

They use the designs as the foundation for the Wisconsin Duplex Auto Company, founded May 1, 1917. The duo quickly obtains funding to develop and produce their first four-wheel-drive truck prototype, known as Old Betsy. By 1920, the successful prototype propels the company's early growth. To meet the demand for the powerful first production series Model A truck, the Wisconsin Duplex Auto Company moves to a new, larger facility in Oshkosh, Wis. and becomes the Oshkosh Motor Truck Manufacturing Company.

Brindlee Mountain Fire Apparatus is one of the world's largest used fire truck sales and service companies. Based just outside of Huntsville, Alabama, the company has forty-five full-time personnel occupying over 12,000 square feet. Our mechanics, all of whom are EVT certified, perform pump tests, general repairs, preventative maintenance, and body, collision, and paint work on over 500 used fire trucks every year.
